Planned Parenthood of the Heartland also manages 8 Locations Outside Iowa

Nebraska: 2 locations

Both perform surgical and abortion pill/RU-486 abortions

Lincoln

Omaha

Arkansas: 2 locations

Both perform abortion pill/RU-486 abortions

Fayetteville

Little Rock

Oklahoma: 3 locations

No abortions performed. All three are presently abortion referral locations:

Broken Arrow

Tulsa: 2 locations (Midtown, South Peoria)

(5 other Oklahoma locations are managed by Planned Parenthood of Central Oklahoma)

Planned Parenthood of the Heartland Abortions

Up until 2009, Planned Parenthood's abortion numbers were from Iowa. The 2010 numbers reflect merger with Nebraska and the 2011/12 numbers reflect merger with Arkansas.

Fiscal Year	Abortions
2012	5,832*
2011	6,361*
2010	5,685**
2009	4,792
2008	4,401
2007	4,397
2006	4,167
2005	3,771
2004	3,638
2003	3,707
2002	2,898

(Source: Planned Parenthood of the Heartland Annual Reports)

* Includes Planned Parenthood of the Heartland affiliates in IA, AR and NE

** Includes affiliates in NE
(Oklahoma locations do not do abortions.)

PP Closes Six since 2012

In March 2013, PP will close its abortion center in Spencer and "abortion referral" site in Fort Madison.

In 2012, PP closed three abortion centers at Knoxville, Newton and Storm Lake and one "abortion referral" location in Des Moines.

Planned Parenthood is expanding in Iowa

Don't let the closings fool you. In 2011, Planned Parenthood of the Heartland announced plans to open six more locations in **Carter Lake, Clinton, Marshalltown, Mason City, Muscatine and Ottumwa.**

Planned Parenthood and Abortion Statistics in Iowa

Abortion Profits of Planned Parenthood in Iowa

We often hear Planned Parenthood officials in Iowa say, "Abortion is only 2% of our business."

That 2 percent is worth up to an estimated **\$2.6 million in Iowa**. Here is a look at the numbers:

Cost of a Surgical Abortion
(PP calls it an "In-clinic" abortion)
\$300-950 or more

Cost of a Abortion Pill/RU-486 abortion
(PP calls it a "Medication abortion")
\$300-800 or more

If we conservatively estimate the average cost of an abortion at Planned Parenthood at \$550, then that means in Iowa, Planned Parenthood rakes in over \$2.6 million a year in abortions alone.

(Using PPH's 2009 abortion numbers for the calculation, before the organization started including other states.)

Planned Parenthood is Making a Killing

Planned Parenthood's prices for a surgical abortion and an abortion pill/RU-486 abortion are so close, but Planned Parenthood makes a much bigger profit from the abortion pill, because there are less overhead/ office expenses.

The doctor is on a webcam and not in person with the woman. Also, there is no clean-up for the staff. The woman has to deal with the blood and body of the baby when she aborts in her own home—alone.

Make no mistake, in Iowa, Planned Parenthood is making a killing.

Planned Parenthood makes an estimated \$2.6 million a year on abortions in Iowa

Planned Parenthood in Iowa More facts:

Planned Parenthood in Iowa pressures Title 19 low-income women to donate for services

Planned Parenthood here in Iowa also charges for pregnancy tests and other services that can be obtained at other clinics for free.

(Source: Former Storm Lake Planned Parenthood Manager Sue Thayer)

Planned Parenthood Fraud

Here in Iowa, Planned Parenthood still faces a \$28 million dollar Medicaid fraud lawsuit by a former Planned Parenthood manager. Among the allegations: Planned Parenthood purchased birth control packets for \$2.98, then billed Medicaid \$35 for the very same packets.

Total Abortions in Iowa

These numbers come from the Iowa Vital Stats Reports. It is important to note that we believe these numbers are low, because despite a state mandate for reporting abortions, the Iowa Department of Public Health statistics are incomplete.

Year	Total	Surgical	Medication /Abortion Pill*
2011	4,808	2,406	2,402
2010	5,393	2,871	2,522
2009	5,829	3,163	2,666
2008	6,486	3,719	2,767
2007	6,649	4,443	2,206
2006	6,728	4,812	1,916
2005	5,881	4,676	1,903
2004	6,022	4,951	1,792
2003	5,916		
2002	6,230		

What do the numbers tell us?

The Iowa Department of Health's numbers show modest decreases in abortion over the years. Planned Parenthood and other pro-abortion groups like *The Iowa Initiative* are eager to claim a victory for birth control education.

Here are more plausible reasons:

- The 40 Days for Life campaigns, started in 2007, have exploded in Iowa. The peaceful prayer vigil outside abortion clinics has been changing the abortion minded.
- Pro-life pregnancy clinics have been growing in Iowa, offering alternatives to abortion.
- The decrease in the abortion rate is part of a nationwide trend.
- 4-D ultrasound technology is increasing awareness about fetal development.
